CAPABILITY STATEMENT

COMPANY PROFILE

Leight Electric, LLC is a full-service, licensed electrical contractor that has been serving the Maryland, DC and Northern Virginia area since 2010. Our extensive experience providing a wide variety of high and low-voltage electrical services has positioned us for growth and ready to take on new design, upgrade and repair projects. Our loyal customer base is testament to our quality of service, efficiency and value. Our mission is to be the most trusted name in the business.

CORE COMPETENCIES

- Design-build/new construction wiring
- Lighting - design, retrofitting, energy upgrades, fluorescent, ballasts, outdoor security, parking lot
- Troubleshooting circuits
- Outlet and switch repair
- Installation of electric vehicle charging stations
- Generator installation and repair
- HVAC electrical installation
- Service panel power installations and upgrades
- Meter relocation/circuit tracing and labeling

DIFFERENTIATORS

- Our policy of providing direct supervision at each of our projects by a master electrician allows us to guarantee quality assurance
- Our implemented operational efficiencies enable us to offer competitive pricing
- Our company culture and business structure are conducive to flexibility and agility in meeting customer requirements and time constraints

PAST PERFORMANCE

- Chase Bank: ATM branch wiring and structured cabling
- Booz Allen Hamilton: Powering of HVAC equipment
